CAREER OBJECTIVE

Fourth-year BSIT student aiming to start a career as a data analyst, building skills in data cleaning, spreadsheets, databases and reporting. I want to grow into a role as an encoder, delivering fast, accurate and well-organized data.

EDUCATION

Bachelor of Science in Information Technology (BSIT)
Datamex College of Saint Adeline, Parañaque City, Philippines
4th year student

TECHNICAL SKILLS

- **Data analysis:** Excel
- **Databases:** MySQL, SQL
- **Programming:** Python, Java, HTML, CSS, JavaScript
- **Systems:** Networking and troubleshooting, computer hardware and software
- **Security:** Cybersecurity fundamentals
- **Tools:** Git and GitHub

PROJECTS

Personal Portfolio Website
A responsive, dark and light themed portfolio built with HTML, CSS and JavaScript, with a subnet calculator, troubleshooting case studies and a contact form. Published on GitHub Pages.

Food Website (Mesa Kitchen)
A simple restaurant website built with HTML, CSS and JavaScript, with a menu filtered by category and an order tray that keeps a running total.

STRENGTHS

- Careful attention to detail when entering, checking and organizing data
- Patient problem solver who works through issues step by step
- Quick, steady learner who keeps practicing until concepts are clear
